### **BOUYGUES CONSTRUCTION WILL SPONSOR THE ESTP CLASS OF 2027**

**Bouygues Construction is proud to announce the signature of a new partnership agreement with ESTP, a leading engineering school in the construction sector. Sponsorship of the Class of 2027, formally signed by Joël Cuny, General Director of ESTP, and Amélie Quidor, Director of Human Resources at Bouygues Construction, heralds a collaboration that will support the 834 students, enrolled for three years to study for bachelor's degrees and engineering diplomas.**

This partnership between ESTP and Bouygues Construction will draw strength from the network of 750 ESTP alumni working for the company and includes a number of initiatives

to support student training, organise educational and recreational events, offer internship and professional integration opportunities, and facilitate international exchanges. In conjunction with ESTP [educational team](#), it will also seek to involve students in issues relating to the transformation of the construction industry.

**The following six themes have been selected:**

- **Safety**, the absolute priority on all construction sites
- **Reduced carbon footprint** and **protection of the environment**
- **Digital and technological transformation**
- **Innovation** in new construction methods
- **Diversity**
- **International perspectives**

Human Resources Director **Amélie Quidor** said: “We are proud to be entering into what is our fourth partnership with ESTP. We are delighted to be supporting the 834 students at the ESTP Class of 2027, sharing with them our passion for the profession and working with them on the new environmental and societal challenges we have to address. Preparing for tomorrow means supporting young people in training, encouraging them to change the way we build. It also means helping them to build a life, or several lives, based on the diversity of activities, skills and extraordinary opportunities that the construction industry has to offer.”

**ABOUT BOUYGUES CONSTRUCTION**

Bouygues Construction employs 32,500 people around the world, all driven by the greatest and most exciting responsibility of all - building for life. In more than 60 countries, we improve daily life for millions of people by creating structures and buildings that serve life and address all our needs: shelter, healthcare, education, work, entertainment, travel, access to low-carbon energy, etc. At every stage of a project, we put all our expertise and our experience into designing, renovating and building differently so that we can meet the critical imperatives of the environmental transition and achieve construction that is sustainable and less resource-intensive. Every day, we make sure that everyone is safe, and that human rights and ethical standards are respected. Committed to strong values, the men and women of Bouygues Construction work passionately alongside their customers and partners so that our footprint becomes ever more positive.
